Covert Button & Screw CCD Camera (Item: C1027)

The LawMate C1020/BU-18 Reliable Button Camera just got an Upgrade. The 700 TVL High resolution CCD image sensor captures high quality color video and offers the best in body worn surveillance for law enforcement and investigations. Button or screw lens covers (your choice) disguise the already tiny pinhole camera. The camera is easily disguised so that capturing video is completely discreet and confidential. You will find all the options you're looking for on this complete camera kit! Best of all, it is capable of connecting to nearly all of LawMate's handheld DVRs.
