Covert Surveillance Glasses (Item: DVR295)

LawMate is bringing Covert Surveillance Glasses back to the market. Move seamlessly from outdoors to indoors with the stylish DVR295 Clear Glass Solution. LawMate packed these hidden specs with a practically invisible camera lens set in a modern black frames and clear eyeglass. No other video glasses perform better with the ability to record high definition 720p video footage. The built-in rechargeable battery allows for about 70 minutes of continuous recording in between charges. Equip operatives with the best hidden camera glasses on the market.

Features:

Covert Surveillance is smoother than ever with these hidden camera glasses. Discreet and a trustworthy investigative tool, they provide concealed high definition video with the one touch recording.

Features:

- Stand-alone DVR
- 720p HD Color Video Footage
- Invisible Camera Lens on Frame
- One Button Design
- Vibration Alert: On-Recording/Power off/ Low Battery
- Time & Date Stamp
- Charging LED Indicators
- LawMate Product #PV-EG20CL

These LawMate Covert Surveillance Glasses are extremely user friendly. Get the device operational by plugging in the mini USB into the glasses' USB Port then plug the other end into a power source. Once green LED light has turned off the device will be fully charged. While your glasses are charging format the memory card on a computer, set the date and time stamp by creating a text file and saving it into the root directory. After fully charged, insert the included micro memory card into the slot with your hand (use the provided tweezers to remove.) Power on and automatically begin recording with one long touch on the side of the glasses. A long vibration indicates the recording has started. Power off by the same button, two short vibrations will indicate the device is powered off. If the LawMate Covert Glasses don't have a memory card, it will vibrate 20 times and power off. If memory card is full, it will vibrate 5 times and power off. When the memory card becomes full the LawMate Covert Glasses will shut down by itself. When the battery is low it will vibrate 3 times.

Cameras and DVRs

Download data by connecting the glasses with the mini USB cord to a computer.
