Hat Camera (Item: C11751)

This cleverly designed hidden camera is disguised as your average baseball hat. The camera is secretly mounted behind the lid and has a secret pocket designed to hide your handheld DVR under the cap.

Features:

Cleverly Kept Under the Hat Camera Disguises All

The hat camera is practically undetectable and can be used for professional covert video surveillance or personal lifestyle recording.

- Undercover hardwired hat camera
- Nothing disguises the camera and the operator better
- With one wire, the camera supplies video to and receives power from the DVR (5V max)
- Color image sensor produces a high quality CCD image
- Connect the hat camera to nearly any KJB handheld DVR system for a one wire covert disguise
- Best uses: Law enforcement, Private investigation, and more

Tech Specs:

- CCD
