Digital & Analog Terabyte Hard Drive DVR (Item: PV-1000EVO3)

High-resolution, law-enforcement grade DVR offers up to 1080p Resolution and places a watermark and tamper-proof counter indicator on every frame. Features a 5" HD Touch Screen, 1TB hard drive, plus a memory card slot that supports up to a 32GB memory card.

Features:

The PV-1000EVO3 takes handheld DVRs to the next level. It comes equipped with all the best features Lawmate has to offer. A huge 5" LCD Touch screen with the ability to store up to a terabyte of data (1024 GB Hard Drive) on the device with the option for an extra 32GB of removable storage. IP based WiFi option allows the user to remote view anytime from anywhere. This model offers the compatibility to work with digital and analog cameras with different camera input options. Use cameras you already have or buy the signature lawmate multipin screw on/off button camera CMD-BU20LX.
