Handbag Covert Camera (Item: C1162)

Whether you wear it over the shoulder or place it on a flat surface, this covert handbag is a perfectly disguised hidden camera. The bag is designed to be large enough for your personal belonging and still has enough room for the recording device you'll need to record the color video from the built in pinhole camera.

Features:

Handy Covert Camera Bags All the Video Evidence

- Bag all the evidence you need using the handbag covert camera
- Inside, a hardwired color camera produces pinhole video
- For hours of recording, connect nearly any of KJB's handheld DVR's to the handbag camera
- Next generation CCD camera produces high resolution images
- With enough room for it all covert surveillance has never been handier

Best uses: Law enforcement, private investigation, undercover surveillance, and more
