

SilverCloud Magnet Mount Accessory Kit Installation

Your SilverCloud magnet accessory kit should contain:

- Magnet mount
- 4 screws
- 1 Battery compartment gasket seal

Installation:

1. Remove battery cover from SilverCloud tracker device.
2. Install gasket seal into the perimeter of the battery compartment.
3. Replace battery cover.
4. Place magnet mount over battery compartment and line up screw holes in magnet mount with brass grommets on the SilverCloud device.
5. Use screws to attach magnet mount to device.
6. Do not over tighten screws.
