WiFi Coffee Cup Lid DVR (Item: DVR261W)

LawMate has upgraded the DVR261W WiFi Coffee Cup Lid DVR with peer to peer Wi-fi connection. Coffee is an essential way to get through the day for many, that's what makes this technology so adaptable. The lid can be put on any standard to-go coffee or tea cup, to camouflage this concealed camera as a beverage from the local coffee shop.

Features:

In operations, use it as a leave-behind and have operatives reviewing 1080p continuous footage from another room. The Wi-fi Coffee Cup Lid DVR was developed to streamline on-the-go surveillance. Depending on the footage quality setting you can trail a suspect for up to 210 minutes between charges.

Features:

- Wi-fi based stand-alone DVR
- Concealed Lens
- 1080p HD Color Video Footage
- Invisible Camera Lens on Frame
- Instant Recording
- One Button Operation
- App Controlled
- Vibration Alert: On-Recording/Power off/ Low Battery
- Time & Date Stamp
- LED Indicators: Charging | On | Recording
- LawMate Product# PV-CC10W

Setting up the Hidden Camera Coffee Cup Lid is simple. The decoy lid twists off to reveal the onboard controls. Charge the device with the USB cord provided; it can be powered by a computer or power block. A green LED light will notify you of charging and will turn off when the WiFi Coffee Cup Lid DVR is fully charged. Insert the micro memory card into the appropriate slot and format the memory card, LED lights will notify you when formatting is complete. The PVCam App makes for easy set up on any Apple or Android device and you will have the ability to remotely view and control the camera. The push-to-start button allows for instant recording. The vibration alerts for secrecy and WiFi on/off can be controlled by the power button. The bottom of this WiFi Coffee Cup Lid DVR is water resistant, but it's recommended to avoid using hot liquids in this device to prevent damage to the camera.

Made by LawMate, supported by KJB: a winning combination
