LawMate Wi-Fi Smartphone Camera (Item: PV-900EV03)

Uncover evidence with this undercover LawMate Smartphone hidden camera. Wi-Fi based, as well as a stand alone DVR. Record and stream live video from a smart device anywhere!

Features:

Unlike traditional smartphones, this decoy smart phone hides a hidden camera so that you can record without being spotted. The 1080P color camera, app controlled one touch recording, and built-in recording system make this Smartphone smarter than most.

- Built-in covert camera and DVR recorder combine for undercover surveillance
- 64GB of built-in memory
- Battery life up to 3 1/2 hours
- 1080P Resolution
- Instantly Record with one touch
- App control: Record video, watch live video and play back video
- Completely covert: turn on the smartphone screensaver disguise two ways - Password lock or Screen Display off
- Multiple recording modes make this more versatile than your real smartphone
- Optional LED Indicators
- Optional alerts indicate operation in your pocket
- Time/Date stamped video files
- 1 Year Warranty

Best uses: body worn mini-camcorder, car camera, webcam, sports or activity camera
