Car Smartphone Holder WiFi Hidden Camera 1080P DVR (Item: PV-PH10W)

Need surveillance in your car, truck, van or RV? Keep track of anyone inside ANY vehicle type. Our Cellphone Holder Hidden Camera (PV-PH10W) is the best choice for covert surveillance in anything with wheels!

Features:

WiFi Hidden Camera for a Car with Night Vision and HD recording.

This high quality covert camera looks and works like a commonly purchased smartphone holder. What makes it even better is that it mounts on your dash - the perfect location in your car to capture the highest quality covert video footage you need! Just how high quality is the covert video camera recording? 1080P to be exact!

There are endless reasons why one might need covert surveillance in a vehicle. Need to find out if your partner or spouse is cheating? Worried about your teen driver texting or doing other distracting things in the car? It's easy to get high definition video of your precious cargo into the hands of the person who needs it by mounting this hidden camera right on your vehicle's dash. Watch, view, control and download the footage to your smartphone. Live stream video through your phone or tablet. 360° swivel allows you to adjust your view to capture what you need, allowing for all the best angles.

- High Resolution 1920x1080 @ 30 FPS
- IR's for Night vision recording
- Built-In WiFi
- 360° Swivel tip design mount for optimal angle adjustment
- Nearly undetectable
- 66° Angle of View to capture almost any event
- Full HD Continuous or motion recording options
- Easy LED indicator lights for set up
- Time and Date Stamp Overlay on the video for evidence recording
- Easy mounting with included suction cup mounting bracket, there is even a second decoy device included so when you have to take this one out you have a replacement cradle.
- Live stream video through your phone or tablet. Download the video to your PC or Mac to keep recordings or snapshots
- Compatible with smartphones up to 8 cm in width
- LED indicators show the device status

What better way to get the highest quality, covert video footage you need, than to have a hidden camera mounted on your dashboard!
HIDDEN IN PLAIN SIGHT!
